Projects

Turf Booking Website

- Designed and developed a web-based turf booking system using React.js and Node.js.
- Implemented a dark/light mode toggle using React Context API.
- Integrated user authentication and a real-time booking system.

[Turf-Booking-Website](#)

Portfolio Website

- developed a personal portfolio website using Next.js, React, and Tailwind CSS to showcase my skills, projects, and experience.
- The website features dynamic routing, server-side rendering for improved performance, and a dark/light theme toggle implemented with the React Context API. It is deployed on Vercel for fast and scalable hosting.

[My-Portfolio](#)

Exam Automation System(College Project)

- Technologies Used: PHP, Data Mining Techniques, Web Development.
- Developed a PHP-based system automating exam management tasks like timetable creation, seating arrangements, and invigilation assignments.
- Dynamically generated seating plans, allowed admin and staff management, and provided students with easy access to exam details, enhancing efficiency, accuracy, and user experience in exam administration.

🌟 Certifications

- Participated in the *"Put AI to Work with IBM Watsonx"* workshop organized by ICT Academy of Kerala and IBM India as part of ICSET 2023.
- Attended the 2023 ICSET conference, themed *"The AI Gyration"*, hosted by the ICT Academy of Kerala.
- Completed the 15-hour Work Readiness Program by ASAP Kerala in collaboration with KKEM.
- Participated in a National Webinar on Machine Learning, organized by Mar Ivanios College.
